

# VIDEO SURVEILLANCE

Committed to providing highly developed, competitively priced, digital solutions, Watchnet products take cutting-edge and conventional safety to a new level.

Video surveillance systems play a crucial role in maintaining the safety and security of your property - residential, commercial, or industrial.

Our professionals will design a custom network of cameras, monitors and recorders, that gives you access 24/7 -- including motion detection, licence plate recognition, smartphone notifications, high-quality resolution and night vision. We have a wide range of indoor and outdoor cameras along with weather-resistant options for all environments.
